

Cefn donation helps hospital secure new beds

Thanks to a generous donation by Clifton company, Cefn, Clifton Community Health Services can now purchase several new beds to assist patients with mobility issues.

Clifton Community Health Services general manager, Brad Jones, said he was overwhelmed by the donation and said the funds would bring a much needed upgrade to one part of the health services facilities.

"We are extremely thankful for the generous donation from Cefn," Mr Jones said.

"The organisation has offered to pay for the cost of ten pressure care mattresses and ten hi-lo electric beds.

"These beds will replace the current ones which we have been using for a long time and which have become outdated.

"The new ones will also come with new features and will be able to provide better care to our patients."
