

General Practitioner (Fellow) Opportunities

- **Looking for a Tree Change? - Join a busy country practice within half an hour of Toowoomba & Warwick**
- **Enjoy rewarding and challenging work, as well as work/life balance**
- **Make a difference with a charitable, for purpose, community-based organisation**
- **Generous Remuneration + Salary Sacrifice (up to \$15,900 per annum) + CPD Opportunities**

Clifton Community Health Services (CCHS) is a vibrant, standalone, community-based, not-for-profit, charitable, health services co-operative that operates Clifton Co-operative Private Hospital; Clifton Medical Practice; Clifton Nursing Home; Sunflower Lodge (Memory Support Unit); Nirvana Hostel; Vedette Villas; and Clifton Home and Community Care.

Pivotal to our operations, we employ a team of skilled General Practitioners who play a key role not only within our organisation but within our local community, and are passionate about providing high quality, person-centered care to our patients and residents.

Given the breadth of our services, and the region's broad demographic, our GPs manage a variety of complex health issues, affording challenging and rewarding work. This includes provision of professional supervision to Registrars, Interns and Students, as the Medical Practice is an accredited Rural Training Clinic.

Set amongst rich agricultural land in the relaxed country town of Clifton, just thirty minutes from both Toowoomba and Warwick, our busy, mixed-billing practice operates from a modern, purpose-built facility featuring the latest technology, diagnostic equipment, mobile device access, spacious and well-lit consulting rooms for GPs and Allied Health professionals and a dedicated, well-equipped treatment room.

Being a values-based, for purpose organisation, members of our team enjoy a strong team spirit and are driven to improve the *quality of life* for all our stakeholders. As such, neither our people nor our patients/residents are ever treated as 'just a number'. Whilst we must of course ensure the viability of our business, we are not commercially driven. Practitioners are supported by highly experienced Practice Nurses and trained administration staff, ensuring accurate appointment scheduling, invoicing, and debt collection and, ultimately, best use of each GPs time.

Our GPs have access to a generous remuneration package, enjoy considerable work/life balance opportunities including sociable work hours, flexibility, onsite short-term and long-term off-site rental accommodation (if required). Whilst the ideal applicant would be looking to work full-time, part-time work hours would be considered for the right person.

The organisation is governed by a skills-based Board of Directors and managed by a professional, dedicated Management Team that values the skill, knowledge and contribution of our GPs while providing quality leadership and support, and the opportunity for all team members to develop to their potential.

CPD opportunities are provided (and often funded) by the organisation, with Clinical Team support and mentoring also provided on-site by our Director of Medical Services and Clinical Governance Committee, and via regular Clinical Team Meetings and Specialist 'Meet 'n Greet's'. Access to CDM and QIP programs, online resources such as AMH and eTG, an in-house Human Resources function and free Employee Assistance Program is also provided.

As a GP with CCHS, you will not only enjoy challenging and rewarding work, be a respected and supported member of our dedicated and purpose-driven team, be well remunerated without the hassle and expense of running your own business, be afforded the time to focus on the person sitting in front of you, spend your days in a relaxing country town and enjoy significant work/life balance benefits, where you will reconnect with your vocation.

Join us in delivering care, compassion and choice to our patients and residents, thereby improving their, and your, quality of life!

If you would like to discuss the position further, please contact Brad Jones, General Manager on 07 4697 3735 or email manager@cliftonhospital.org
